## Web Developer/WordPress Developer

Detail oriented and dynamic Web Developer with extensive experience. Possess strong knowledge of **PHP, JavaScript, React, WordPress, .Net, Mongo DB, PostgreSQL, MS SQL Server, HTML5, CSS3, Bootstrap**. Strong team player with ability to work collaboratively as well as independently. Quick learner, flexible and able to work well under pressure to meet tight deadlines.

## TECHNICAL COMPETENCIES

---

**Programming Language:** JavaScript, PHP, C#

**Front End Technologies:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, React, AJAX

**IDE:** Microsoft Visual Studio, Visual Studio Code, Sublime Text, Net Beans, Eclipse,

**Others:** Agile Methodology, Express, DOM manipulation, JSON, Nodejs, SharePoint, RESTful APIs

**Database:** MySQL, T-SQL, MSSQL Server, MongoDB, PostgreSQL

**Operating System:** UNIX and Windows

**Web Server:** Apache, Windows Server

**Code versioning:** GitHub, Git

**Framework:** WordPress, .Net

**Domain Expertise:** Financial, Banking, ERP solutions, Advertising Companies, Shopify

## PROFESSIONAL EXPERIENCE

---

### Web Developer (Freelancer)

May 2018- Present

[Fusion5ive](#), [Mississauga](#), [Canada](#)

Project Handled: Career Cloud Job Search Portal (Web-Based). This project was basically a online job portal where applicant can apply for different jobs posted by the employer and employer can post as many job as they want

Tools & Technologies used: **C#, .Net, ADO .Net, REST, Microsoft SQL Server, Asp.Net MVC, LINQ**

- Implemented repository pattern using an ORM and then impose business rules governing data in the system
- Designed and develop high-volume, low-latency applications for mission-critical systems, delivering high-availability performance
- Created SOAP API layer for interfacing with the system using WCF, and REST based API interface on the system using Web API
- Supported continuous improvement by investigating alternatives and technologies and presenting these for architectural view

### Technical Support Representative

Oct 2019- Nov 2019

Government of Alberta (Compugen) | Edmonton, AB

- Deployed desktops and peripherals following deployment documentation and checklists
- Perform complex hardware and/or software upgrades to existing equipment
- Established network connections for desktops and printers
- Troubleshooting to determine and resolve the root cause of most hardware or software malfunctions at the desk level
- Performed complex moves, adds, changes of computer equipment
- Followed documentation and direction as required on projects
- Provided proper and prompt updates on projects and documentation assigned on daily basis

---

Project Handled: A Reliable Door Recognition System Based on Self Organizing Map (SOM) and Canny Edge Detection. This project was a door recognition system from door containing images to confirm whether there is a presence of door in the image or not

Tools & Technologies used: **C#, JavaScript, Image Processing, PHP, SQL Server**

- Formulated a variety of models and diagrams (such as flowcharts) that instructed and helped students to write reliable and clean code by using the best Software Engineering principles and practices
- Excelled in rapid application development and management of technological issues for assigned projects, earned the highest customer satisfaction rating (almost 90%) for all software solutions delivered
- Collaborated with other computer specialists to create optimum software and spearheaded the company idea generation program which resulted in improved efficiency software development life cycle by 38%

## Web Developer

Nov 2014-Dec 2015

### Dynamic Solution Innovators, Bangladesh

Project Handled: Online Hotel Management System Software (web based). This project was a website and web application of Hotel Management System

Tools & Technologies used: **Wordpress, SQL Server, JavaScript, HTML, CSS, Bootstrap**

- Designed and developed user interface web applications for clients
- Implemented and maintained Online Hotel Management System which helped in improving the billing process, organizing guest and staff details in user friendly way
- Created websites for various sector companies including financial, banking, health care and government organizations
- Developed web site maps, application models, image templates and page templates that meet project goals, user needs, and industry standards

---

## EDUCATION and PROFESSIONAL DEVELOPMENT

---

### Junior IT Analyst Program

May 2019- Oct 2019

NPower Canada | Calgary, AB

*14-week intensive in-class training on the fundamentals of computer technology, and project management essentials*

### .Net Developer Bridging Program

Nov 2017- April 20

Humber College, Toronto, ON

- C# .Net programming
- Advanced C# .Net programming
- SQL Server, T-SQL, Stored Procedure, Functions
- ASP .Net Web Forms, ASP .Net MVC

### CompTIA A+

Oct 2019

### Cisco IT Essentials Certification

Oct 2019

### Bachelor of Science in Computer Science and Engineering

2015

Chittagong University of Engineering and Technology, Bangladesh
